

SPMT Completes Second Leg of Transport

Trailers reach Ukudu power plant site at 1:46am, ahead of schedule

FOR IMMEDIATE RELEASE

Hagåtña, Guam - Tuesday, February 14, 2023 – The Self-Propelled Modular Trailers (SPMTs) carrying heavy haul components for the new Ukudu Power Plant completed its second leg of the transport at 1:46am, 3 hours ahead of schedule.

The transport convoy which included two SPMTs, a 16-axle and 18-axle carrying 138.5 metric tons and 125.7 metric tons of cargo, respectively, departed the GPA Transportation Shop in Tamuning at 9 pm where it headed Northbound on Rt. 1 to Ukudu.

The convoy included Guam Police Department units, G4S vehicles, and Smithbridge trucks laying out and picking up steel plates for the SPMT to traverse over. The SPMT's return to the Port Authority of Guam will be scheduled and announced to the public later today.
